

TURRIS SG1

HIGH-PERFORMANCE PORTABLE SECURE ROUTER

Plug-and-play setup

Connects to your modem and you are good to go.

Easy VPN

Enjoy encrypted connection to your local network from anywhere with a few clicks.

Always updated firewall

Unique firewall software does not put you at risk and brings updates instantly.

Portability

Turris SG1 is designed to be fully portable – it can be powered by a powerbank while using 4G as both – the primary connectivity or as a failover to keep you always online.

45 000+ attacks

are targeted on each router/server daily

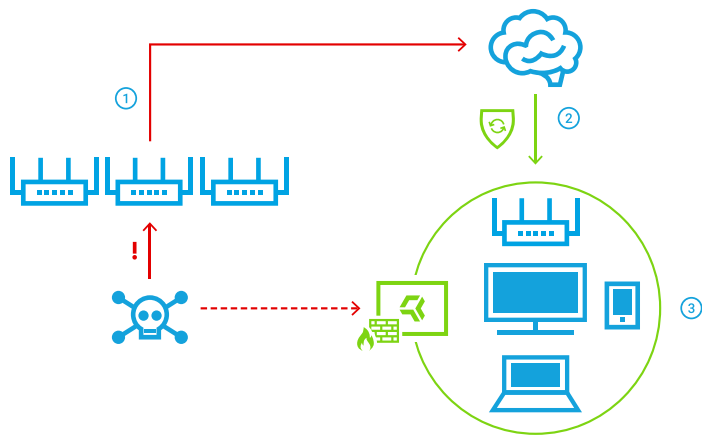

4 000~ updates

you get with Turris Shield daily

2 seconds

are enough for Turris to detect an attack and send an update

WHY IS TURRIS SG1 SAFER THAN OTHERS?

- 1 Turris gets data from thousands of probes all over the world.
- 2 When a new attack is detected, firewall update is automatically created and distributed to all Turris devices.
- 3 Your entire local network, often containing many devices with no or outdated firewall, is protected even against attackers known only for a few seconds.

CPU	Marvell Armada 3720 dual core 1.0 GHz ARMv8 Cortex A-53
RAM – DDR3	1024 MB
WAN port 10/100/1000 Mbps (RJ-45)	1x
LAN port 10/100/1000 Mbps (RJ-45)	1x
MicroSD card slot	1x
USB 3.0 (up to 5 Gbps)	1x
USB 2.0	1x
AC input	100–240 V / 800 mA
Button	Reset Button
Operating temperature	0 to 40 °C (40 to 104 °F)
Relative humidity	10 up 90 %
Warranty	2 years
Certification	CE
Power supply	USB-C
Wi-Fi 6	✓
RGB LED	1x
LTE compatibility	✓

Turris is a hardware & software design division of CZ.NIC – Czech Republic domain registry & software development company. Turris devices are designed and manufactured by CZ.NIC in Czech Republic, EU.
